Why Wellington Was Called the "Iron Duke."
The Duke of Wellington, hero of Waterloo, greatest of battles, was called from his intense strength, power and energy, the "Iron Duke." Wellington was a man of command, plan and success. It is possibly less measure, this power of success is inherent in every healthy man. It is the brightness of health and strength. It is only the nerve-weakened and physically exhausted man who is the weakling in this world, the weak and failure in life. And in this age of scientific achievements, there need be no wrecks of manhood, no weakenings, no failures to succeed. Men who through ignorance, indiscretion, excesses or overwork, have weakened themselves, shattered their nerves and exhausted their physical strength, however and energies can, under the expert knowledge of the present day, be restored to the perfect strength and vigor of manhood. Dr. Greene, of 35 West 14th St., New York City, is the greatest specialist in curing this class of diseases that this world has ever known. His success in curing such complaints as weakness and debility, nervous weakness, and physically exhausted men. His treatment differs from that of all other physicians. He uses absolutely no poisonous drugs, but achieves the most marvelous cures by harmless vegetable medicines, truly wonderful in their strengthening, vitalizing, invigorating and health-restoring powers. This great boon to men is made doubly valuable by being placed within reach of all men, for you can consult Dr. Greene about your case absolutely free of charge, whether you call or write to him. If you are one of the weak ones of the world, lay your case at once before Dr. Greene, and your weakness, gloom, weakness and dependency will be speedily replaced by renewed strength, buoyant hope, bounding vitality and the vigor of perfect manhood. If you cannot call, write the doctor fully and freely and in absolute confidence about your case. His advice and counsel will cost you nothing, and we promise you new hope, new energy and the strength and power to achieve sure success in life, if you will follow his directions.

Heaten at Their Own Game.
From Hazleton Standard.
"Speaking of quo warranto proceedings," says the Shenandoah HERALD, "isn't it about time to set down on these chronic office-seekers, who, failing to get what they want, run into court and attempt to settle the verdict of the people? We certainly agree with our neighbor, Politics, after all, only a gambling game, and the words of Shakespeare, 'Lay on, MacDuff, and d—d be the man who first cries enough,' which is much food for thought for those who kick and squirm after they have been beaten at their own game."

EX-TREASURER HAYWOOD DYING.

Harrisburg, Feb. 11.—Attorney General Elkin received a telegram yesterday afternoon from Mrs. Benjamin J. Haywood, at Sharon, asking him to come to the bedside of her sick husband, late treasurer and cashier of the state treasury, who said he would like to see his old friend before he dies.

BENJAMIN J. HAYWOOD.
Mr. Elkin hurried to Mr. Haywood's bedside at once. All hopes for his recovery have been given up. Mr. Haywood was taken sick five months ago with an affection of the heart and lungs, which culminated into acute Bright's disease. He was compelled to relinquish his duties at the state treasury last December, and has since been confined to bed. Three weeks ago he was removed to Sharon. He has no children.

Nashville's Coal Famine.
Nashville, Tenn., Feb. 10.—Manufacturing establishments of this city are closing down because of a shortage of coal. The supply has been almost exhausted by continued cold weather. The Daily Republican says: "The action grows out of articles, editorial and news, which appeared in the Republican, which it is alleged grossly slanders, and misrepresents Mr. Whitehouse in relation to his connection, as co-surety, with the prosecution of the Lebanon county bribery case of this week."

BE CURED OF GRIP!
The Wonderful Results Obtained in the Case of Supt. Davidson.

celery compound during the last two months—and the proprietors of this remedy have never known so great a call for it—has been due to its use by thousands of people for whom it has been prescribed by intelligent physicians to restore the patient's vitality, to purify the blood of the enervating poison, to restore the nervous system to healthy action and to strengthen the vital organs.
A person will continue to suffer from the evil effects of grip for many months unless he attacks the disease by getting rid of the unnatural, unhealthy poisons in the system, supplying the body with new blood, arousing the healthful action of the kidneys, liver and digestive organs, and nourishing and invigorating the over-exerted and debilitated nervous system. All this and just this Paine's celery compound will do. In the multitude of cases where it has been used, it has never failed.
A case well known in Chicago, is cited. Mr. Frank E. Davidson, who is one of the most brilliant and best known engineers in the world, had just finished the plans for the great intercepting sewer system in Chicago, which is to divert the entire sewerage of the city from Lake Michigan, through the famous Chicago drainage canal, and down the Mississippi. Superintendent Davidson had worked for months on this scheme. He was well-nigh exhausted and took to his bed with an attack of the grip. After a while the disease not having left him he was advised to try Paine's celery compound. He was soon back at his office in the department of public works, a well man, and forthwith wrote a letter to the proprietors of the remedy, in which he says:
"I had been told by friends of the wonderful results obtained by them from the use of Paine's celery compound. After my severe attack of the grip I determined to try it. I have already found that my friends' reports were not at all exaggerated and I wish to join most cheerfully with them in recommending the remedy to others."
Hundreds of grateful letters have been written to the proprietors of Paine's celery compound since the appearance of grip this year, telling of the perfect recoveries it has effected. The letters come from men and women of many conditions. Few persons are so poor they cannot afford to have this great remedy constantly in the house, and none are so prosperous that for their health's sake they can afford to be without it. When so many men and women whose words carry the utmost weight in the communities in which they live testify as they do to the great benefit they have received from Paine's celery compound, there can be no hesitancy in trying it. A single trial is the test which is confidently invited.
